College Incentives for NH Scholars

Nearly all graduating New Hampshire Scholars seniors immediately enroll in postsecondary education. Less than **55%** however, attended college in-state. While this matches the state average, our institutions would like to recognize NH Scholars students for challenging themselves by providing application fee waivers. We encourage students to use these fee waivers responsibly, thus researching the college to ensure proper fit. Students should be applying to colleges that are a good fit - not solely because it's free. Thank you.

Below is the process by which NH Scholars students can apply at no charge to New Hampshire institutions.
