

Summer Reading

Skills English

In choosing a summer reading selection for Skills English, please do the following:

1. Refer to the General English reading lists that correspond to the same grade as your English Skills class: English Skills I = English General 9, English Skills II = English General 10, etc.

Attempt to read one of the selections on the corresponding list, if appropriate to your reading level and needs.

If this is not appropriate for your needs, then do step #2 below.

2. Choose a different book that is at a reading level appropriate to your independent reading ability. See the website for suggestions across genres and reading levels:
coebrown.org/summer-reading.

When reading, be sure to take notes that may be used for the summer reading assessment. There is a note-taking guide on the website as well.
