## PHILOSOPHY

Coe-Brown Northwood Academy is a comprehensive secondary institution offering the highest quality curriculum of studies to the residents of Northwood, Strafford, and surrounding towns. Our educational programs and opportunities are accessible to both traditional and nontraditional learners, responsive to the diverse needs of an ever-changing community, and consistent with the state and federal laws supporting the education of our youth.

To achieve this mission we seek to:

1. Promote learning outcomes that:
  - meet high academic standards.
  - support excellence in the acquisition of literacy, technology, communication and computational skills.
  - place the needs of the individual student first, maintaining small teacher/student ratios.
  - provide a strong foundation for post-secondary education, employment, and life-management skills.
  - reflect and meet the needs of students in a multi-cultural society.
2. Create an environment that fosters an appreciation of:
  - lifelong learning
  - critical and creative thinking
  - personal responsibility
  - self-respect
  - multiple aspects of knowledge
3. Support mutual respect for peers, faculty, administration, community, and the environment through example, curriculum, community service projects, and community involvement with the school.
4. Continuously assess, improve, and develop curriculum in response to the ever-changing world.

The academy offers a curriculum of studies which is consistent with these premises and the laws of the State of New Hampshire. This curriculum, woven into a coordinated course of study, will enable all students to realize their potential and prepare them for their chosen endeavors upon graduation. The expertise of faculty and staff permits course offerings to develop the full potential of all students, whether they be educationally advantaged or challenged. It is then incumbent on the students to be academically diligent, consistent in attendance, and positive in attitude to successfully complete their chosen course of studies.

## SCHOOL AND COMMUNITY

CBNA founded in 1867 is a co-educational, public academy school enrolling students in grades 9-12. Coe-Brown serves students from several surrounding communities. Students from towns other than Northwood and Strafford are admitted on a competitive basis. Towns not maintaining high schools assume tuition costs for their residents. The Academy is chartered by the State of New Hampshire and is governed by a Board of Trustees, which meets on a regular basis to conduct the educational and business affairs of the school. The Academy offers a traditional academic curriculum with a range of courses in English, Mathematics, Science, Social Studies, and World Language. Many electives are available in Art, Music, Business, Computers, Career and Technical Education, Family & Consumer Studies, and Physical Education. Approximately 80% of the students continue their education beyond high school.

The campus consists of Pinkham Hall, Smith Hall, Soper Hall, Wiggin Hall Fine Arts Center, Ruby Giles Music Center, Science Building, playing fields, and woodlands.
