Planned Breakdown of a minimum of 25 hours

Activity need to Complete Project	Approximate Hours for completion
Total Proposed Project Hours	

*Add additional rows if necessary

Has this project been completed as a Senior Project before? If so, how do you plan to make it your own? **OR** If this project is being proposed by more than one student, how do *you* propose to make your 25 hour contribution separate and individually meaningful?

What do you plan on learning as a result of completing this project?

Have you taken a course/workshop/tutorial which has given you some background in how to execute this project?
If so, explain below. If not, what or who do you plan to use as reference for learning and/or growing from your work.

How will this project benefit you as an individual and/or the community?

How do you plan on documenting the project to show the progression from start to completion?
